

2019 | 2020 SEASON SPONSOR: BMO 

YOUTH OPERA LAB

Opportunity. Intensity. Artistry.

The Flying Dutchman: Voice Science and Health

Saturday, April 25, 2020 | 12 - 4 p.m.

Four Seasons Centre for the Performing Arts

Ever wonder how opera singers are able to project their voices over a full orchestra, and into a theatre of thousands without the use of microphones? Join us for a workshop with specialist, Dr. Shannon Coates, to learn all about the science of singing and the various techniques that opera singers use to train their voices for the stage. This workshop also features performances by members of the COC Ensemble Studio.

Youth Opera Labs are **FREE** events for teens and young adults ages 16 to 24. No previous experience with opera is necessary. Participants are selected based on the interest and relevance demonstrated in their online application.

REGISTRATION OPENS ON MARCH 30 AT 10 A.M.
Visit **coc.ca/YOL** to register and to learn more!
